Job Description: Welder

Reports to: Boatswain.

Position Summary: The Welder aboard a Cutter Suction Dredger (CSD) is a position that is essential for welding tasks required for the maintenance and operation of the vessel. This role requires technical proficiency required for metalwork, repairs, and fabrication necessary for the upkeep of the CSD.

Responsibilities:

- **Welding Tasks:** Executes welding projects as needed, following safety protocols and specifications for metal joining and cutting aboard the dredger.
- **Maintenance Oversight:** Carries out regular maintenance of both the inner and outer decks, addressing any wear and tear, and preventing corrosion through effective welding repairs and protective coatings.
- **Equipment Upkeep:** Responsible for the maintenance and repair of the cutter equipment, including the crucial task of replacing worn cutter teeth, welding new edges, and ensuring the cutter head's optimal performance.
- **Safety Management:** Upholds rigorous safety standards while conducting welding operations, ensuring all activities are performed with personal protective equipment (PPE) and in line with maritime safety regulations.

Normal Repetitive Tasks:

- Engages in the regular inspection of welding equipment and materials, ensuring readiness for immediate and ad-hoc repair needs.
- Monitors and maintains deck safety equipment, including the structural integrity of railings, ladders, and hull components through skilled welding.

Terms of Employment: Full-time, 6 months contract, rotational.

Benefits: Benefits package applicable or foreign service premium and travel allowance may be applicable when employee is travelling outside of home country

Location of Work: St John's / Argentia, Newfoundland, Canada.

Contact Information: info@do-jdn.com

Language of Work: English and Dutch (optional).

Skills/Education and Work Experience: Demonstrated experience in maritime welding and deck operations on a Cutter Suction Dredger

Salary & NOC: 95101 - \$22.00.
