

Job Description: Turner – Cutter Section Dredger**Reports to:** Chief Engineer

Position Summary: A Turner on board a vessel is responsible for operating and maintaining various turning machines and tools to fabricate, repair, and maintain metal parts and equipment essential for the vessel's operation. The role requires precision in machining and a thorough understanding of mechanical components to ensure the vessel's machinery functions efficiently.

Responsibilities:

- **Machining and Fabrication:** Operate lathes, milling machines, and other turning equipment to fabricate or repair metal parts. Perform precision machining tasks to create or modify components according to specifications. Measure and examine completed units to detect defects and ensure conformance to specifications using precision instruments such as micrometers and calipers.
- **Maintenance and Repair:** Conduct regular inspections of turning equipment and tools to ensure they are in good working condition. Perform routine maintenance and troubleshooting on mechanical components and machinery. Collaborate with the engineering team to repair or replace faulty parts on the vessel's machinery.
- **Quality Control:** Ensure all machined parts meet the required quality standards and specifications. Maintain accurate records of work performed, including measurements and technical data.
- **Safety and Compliance:** Adhere to safety protocols and guidelines to ensure a safe working environment. Follow all maritime regulations and standards related to engineering and maintenance activities. Use personal protective equipment (PPE) as required.
- **Technical Documentation:** Read and interpret technical drawings, blueprints, and specifications. Maintain detailed logs of machine operations and maintenance activities.
- **Team Collaboration:** Work closely with other engineering personnel to support overall vessel operations. Assist in training junior crew members on machining and safety practices.

Terms of Employment: Full-time, 6 months contract, rotational.**Benefits:** Benefits package applicable or foreign service premium and travel allowance may be applicable when employee is travelling outside of home country**Location of Work:** St John's / Argentia, Newfoundland, Canada.**Contact Information:** info@do-jdn.com**Language of Work:** English and Dutch (optional).**Skills/Education:** Vocational training or certification in machining or a related field. Relevant apprenticeship or experience in a similar role. Proven experience as a turner or machinist, preferably in a maritime environment. Experience with various turning machines and precision measuring tools. Proficient in operating lathes, milling machines, and other turning equipment. Strong mechanical aptitude and problem-solving skills**Salary & NOC:** 72100 - \$27.75
